Phone	+375297635897
e-mail	silendil@yandex.ru
ICQ	221837478
Skype	silendil_harazon

**Personal Information**

Date and place of birth:	Nov 09,1983; Belarus
Marital status:	Married

**Foreign Languages**

English Written:	Upper intermediate
English Spoken:	Intermediate
German Written:	Basic
German Spoken:	Basic

**Education**

Date:	Sep 2001 – Jun 2006
Organization:	Belarusian State University
Qualification:	Mathematic-programmer
Major:	Numerical modeling

**Technical Expertise**

	<b>Technology</b>	<b>Years of experience</b>	<b>Proficiency</b>
Programming Languages:	Java	13	Excellent
	JSP	6	Good
	Android	3	Basic
	JSF	2	Good
	Spring Framework	3	Good
	Delphi	1	Basic
	HTML	6	Basic
	XML, XSL	8	Good
	JavaScript(JQuery, AJAX)	3	Basic
	EJB	1	Basic
	JAX_RS	1	Basic
	Groovy	1	Good
	Grails	1	Good
	Angular	1	Basic
Operating Systems:	MS Windows	14	Excellent
	OS Android	7	Good
DBMS:	MS SQL	2	Basic
	Oracle	9	Excellent
	MySQL	3	Basic
	MongoDB	2	Basic
Web & Application Servers:	Apache	4	Basic
	Oracle WebLogic	3	Basic
	Tomcat	6	Good
	Glassfish	3	Good
	Kafka	1	Basic
	Google Cloud Platform	1	Basic
Software Technologies:	Web applications	4	Basic
	Client-Server Applications	9	Good
	Desktop Applications	6	Good
	Real-time software	6	Good
Communication, Documentation:	Reporting with MS Word/Excel	8	Excellent
	MS Outlook	8	Excellent

**Employment History**

Date:	October 2019 – now
Organization:	"Cloud Business"
Position:	Software developer
Responsibilities:	Development and support accounting integration system
Tools & technologies used:	MySql, MongoDB, Java (Groovy, Grails), Jira, Git, Maven, Gradle
	Development and support accounting system for integration payment transactions to QuickBooks Online System
Date:	March 2019 – June 2019
Organization:	"IDFinance"
Position:	Software developer
Responsibilities:	Development and support finance credit system
Tools & technologies used:	MySql, Java (JPA, Hibernate), Spring Core, Spring Boot, Jira, Git, Maven, Gradle
	Development and support finance system. Researching ways to transfer system from Maven to Gradle.
Date:	March 2018 – March 2019
Organization:	"Seavus"
Position:	Software developer
Responsibilities:	Development and support system of personal skills. Updating existing features. Development plugins for Jira and Confluence. Researching modules for Attivio system ( <a href="http://www.attivio.com">www.attivio.com</a> )
	Postgres, Java (JSP, JSF, JAX-RS, JPA), Spring Core, Spring Boot JavaScript (jQuery, AJAX, angular2), HTML, Jira, Git
	Updating existing features. Development plugins for Jira and Confluence. Researching modules for Attivio system ( <a href="http://www.attivio.com">www.attivio.com</a> )
Date:	Oct 2017 – Feb 2018
Organization:	"TouchSoft"
Position:	Programmer
Position:	Software developer
Responsibilities:	Development and support system of internet chats
Tools & technologies used:	MySQL, Java (JSP, JSF, JAX-RS, JPA) , Spring Core, JavaScript(jQuery, AJAX, angularJS), HTML, Jira, Git
	Development new features and support existing system of internet chats
Date:	March 2016 – Sep 2017
	"ACD/Labs"
Position:	Software developer
Responsibilities:	Development of UI analytical systems of chemistry development
Tools & technologies used:	Oracle, MongoDB, Java, GWT, HTML, CSS, Git
	Development front- and back-end analytical system, optimization system

Date:	Dec 2014 – March 2016
Organization:	Freelance
Position:	Software developer
Responsibilities:	Development of UI analytical systems for others companies
Tools & technologies used:	MySQL, Java (JSP, JSF, JAX-RS, JPA) , Spring Core, JavaScript(JQuery, AJAX, angularJS), HTML
	Development front- and back-end analytical system, optimization system
Date:	Sep 2014 – Dec 2014
Organization:	"SCAND"
Position:	Software Development
Project ID	<b>AKTIFF</b>
Project name:	<b>Analytical System</b>
Project description:	The accounting system of energy consumption
Industry:	Finance
Position:	Software developer
Responsibilities:	Development
Tools & technologies used:	Oracle (PL/SQL), Java (JSP), JavaScript(JQuery, AJAX), HTML
Project duration:	Sep 2014 – Nov 2014
Additional information:	Development front-end (using JSP, HTML, JS), increasing system performance (caching components, query optimization), support system(correcting visualization, adding functionality)
Date:	Dec 2013 – March 2014
Organization:	"Andersen"
Position:	Software Development
Project ID	<b>Leroy Merlin</b>
Project name:	<b>Analytical System</b>
Project description:	Control system for suppliers and products for supermarket chains
Industry:	Finance
Position:	Software developer
Responsibilities:	Development
Tools & technologies used:	Oracle (PL/SQL)
Project duration:	Dec 2013 – March 2014
Additional information:	Development of reports on data reconciliation (SQL part), query optimization
Date:	Apr 2013 – Nov 2013
Organization:	"PROGNOZ"
Position:	Software Development
Project ID	<b>Portal Moscow-City</b>
Project name:	<b>Analytical System</b>
Project description:	Oversees the municipal services of the city Moscow
Industry:	Governmental
Position:	Software developer
Responsibilities:	Design application, development
Tools & technologies used:	Oracle BPEL, Oracle (PL/SQL), Oracle WebLogic Server
Project duration:	APR 2013 – Nov 2013
Additional information:	Development of a single data repository, query optimization

Date:	Jul 2012 – Feb 2013
Organization:	"Sberbank-Technology"
Position:	Engineer-programmer
Project ID	<b>BARS</b>
Project name:	<b>Interbranch Payment System</b>
Project description:	Accounting, insurance and social security system branches
Industry:	Finance
Position:	Software developer
Responsibilities:	Planning, testing on common test cases, reporting
Tools & technologies used:	Java EE, JSP, Oracle, IBM Jazz
Project duration:	Jul 2012-Feb 2013
Additional information:	Development payment system (backend), code review.

  

Date:	Jan 2006 – Jul 2012
Organization:	Department of Computer Science and Automation of "Belinvestbank"
Position:	Engineer-programmer
Project ID	<b>BASIS</b>
Project name:	<b>Interbank Payment System</b>
Project description:	Managing different kinds of documentation using SWIFT-Alliance system
Industry:	Governmental, Finance
Position:	Software developer
Responsibilities:	Design application, development
Tools & technologies used:	Java SE, Swing, Oracle (PL/SQL), Corba Services
Project duration:	Jan 2006 – Jul 2012
Additional information:	Design application, development frontend and backend, support system, bugs fixing
