Summary

I have 2 years of commercial experience in Frontend development. I'm looking for a team with good people and professionals, with who I can do something special and strive for perfection. I want to write quality code and develop useful applications. I like people. I can work without control. I am persistent, goal-oriented and honest.

If my experience matches your expectations let's talk and try to understand if we fit each other :)

Experience

Frontend Developer

Wizdi (<https://wizdi.school>)

Education platform for schools of Israel: for students, teachers, and editors. This platform was created and works for the ministry of education.

I developed:

- books and activities viewer (activities - some development games, videos and etc) with all dependencies (classes, activities, like, publish, allow for a task and other);
- modules for creating books and book's parts (chapter, subjects);
- modules for creating activities and for linking activities to book parts (chapters, subjects);
- modules for create program for students: homework, learning progress of the book and other;
- settings modules for teachers and editors.

Technology stack: Angular8, REST API, rxjs, Git/GitFlow, Angular Material, Bootstrap4, SASS, Postman

Frontend Developer

ARBrowser (<https://arbrowser.co>)

Angular application for creating and editing content in mobile applications with AR.

I developed:

- registration, authentication, creating\editing entities (organization, project, category, product, texture, etc.);
- iframe 3D viewer for integrating into shop's websites in order to allow to watch 3D models in augmented reality by their customers

Technology stack: Angular7, REST API, rxjs, Git/GitFlow, Angular Material, Bootstrap4, Postman

Frontend Developer

Freelance

To develop myself, I created websites from PSD or self-design: landing page, internet-shop (using JS, CSS, Bootstrap, HTML, pgAdmin4, PHP)
