Date of birth/age: 13.04.93/27

Jekaterina Rudakova

PROFILE:

Documents: Estonian Passport (EU), CZ permanent residence, VZP.

Started studying (self studying) 1,5 years ago. Have some 'study projects' on my GitHub, what was writhed just to try some technologies and for my work patterns. From may 2019 start working in a company like Junior, in the office. After September I work from home like Mid-level.
Company portfolio: https://vsdemo.ee/page/meie-tood/
(Many projects is non public by contract)

Now I started my project (code copyrights are my) and I can public it for you (like example of my coding style). If you are interested, please contact me.
Also I have recommendation letter from the Head of Development (Negative Space).
I am interesting in projects which can upgrade my level and bring me comfortable work and good money.

Motivation of changing work:
I have a son, 2 years old. Have a babysitter. My son starts to be very active and not comfortable working from home every day. Also want more teamwork.

SKILLS:

Languages: Russian (native), Estonian (native), English (intermediate level and technical documentation), Czech.

Systems: Linux/Ubuntu (home and work), IOS, Windows (not comfortable, but not a problem)

Backend Languages:
Python (pure, Django, Django REST framework)

Frontend:
HTML, CSS, JS (pure JS, jQuery, Ajax)
* Not writing, just changing, adapting, fixing errors)

DB: Postgres, MySQL
Payment systems: Braintree, Stripe
Preferred IDE: PyCharm

Other skills: Docker (prefer), Git, Redis, RabbitMQ, Celery, Memcached, NGINX, Gunicorn, UnitTests
Some libraries from my skillbox:
django-parler, django-weasyprint, flower, django-allauth, social-auth-app-django, etc.

Soft skills: work ethic, adaptability, critical observation, teamwork/collaboration, research, communication skills, problem solving, flexibility, self-study

In the process: Django REST framework, DevOps
Next steps: Vue, React, Go

EXPERIENCE:

10/2019 to present – VS OÜ   Tallinn, Estonia

Mid-level Python/Django developer
Backend developer, individual work, fullstack projects, testing, technical support.
Development of internal tools, software and modules for big clients.

Viktor Rudakov (speak in Russian, Estonian. English – you can contact by email)
